

March 08, 2018

TO: NGTL System Shippers
FROM: NOVA Gas Transmission Ltd. (NGTL)
RE: NGTL System – Access to Storage

The Tolls, Tariff, Facilities & Procedures Committee (TTFP) adopted Issue T2018-03 (Issue) at the February 13, 2018 TTFP meeting for the purpose of entering into discussions about potential changes to IT-S service, including but not limited to:

- reviewing the current design methodology related to storage and the facilities that provide access to third party storage facilities
- reviewing the Tariff provisions and procedures that prescribe the priority of service of IT-S service

NGTL will use the TTFP collaborative process to establish a task force to initiate and conduct discussions related to the Issue.

The purpose of this letter is to provide notice to parties that are not TTFP members but have an identifiable interest in this Issue and seek to participate in these discussions. All parties that participate in the task force will be required to adhere to the TTFP procedures during these discussions, including conditions of confidentiality. The task force has commenced activities beginning February 22, 2018.

If your organization is not a TTFP member but is interested in participating in the task force, or if you have questions about the Issue or task force process, please contact Saawan Logan at (403) 920-7690 or by email at Saawan_logan@transcanada.com. Participation is at the ultimate discretion of NGTL, and requests must be made on or before March 23, 2018.

Regards,

Patrick M. Keys
Vice-President, Commercial West
Canadian Natural Gas Pipelines
