

## Foothills Shipper Meeting

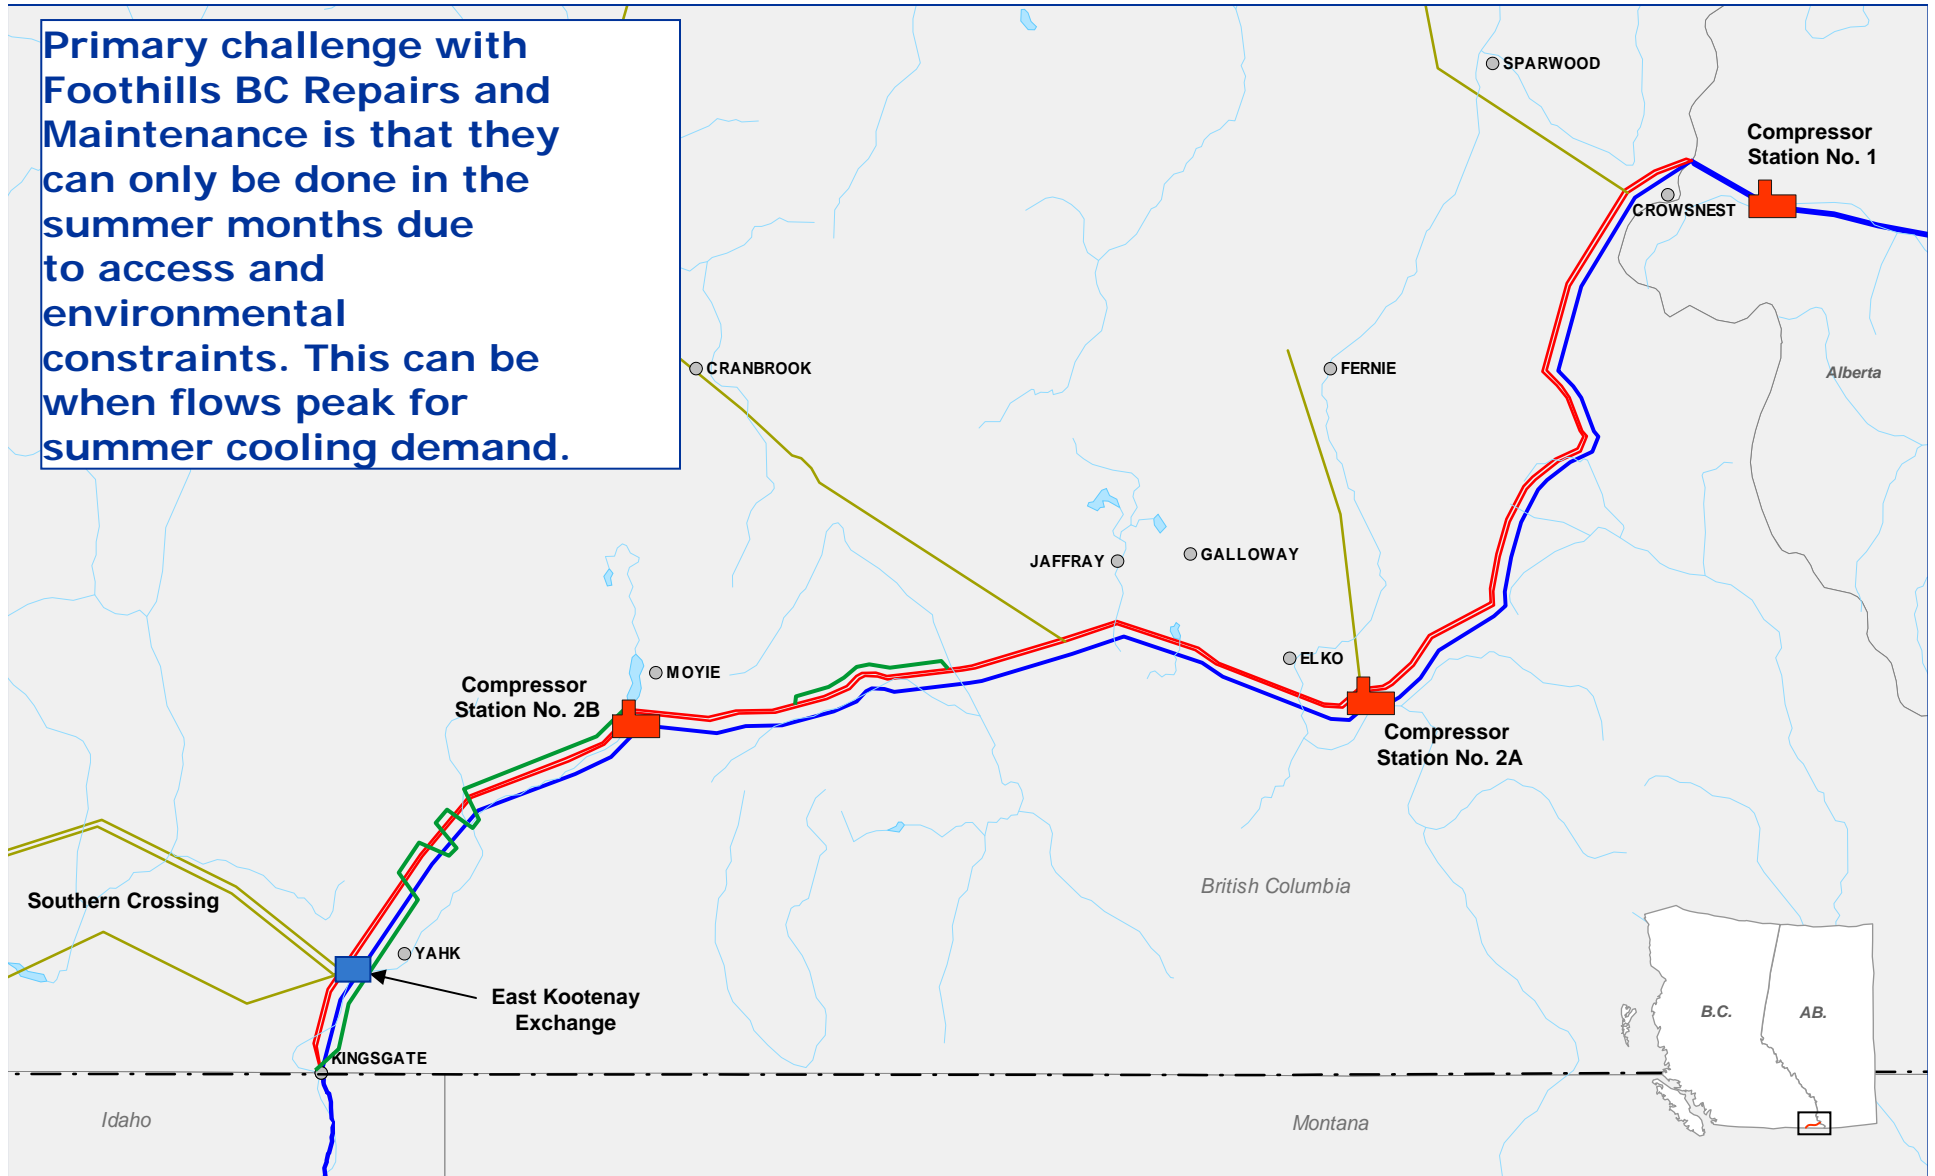

October 16, 2012

Maintenance Update

# Foothills BC Maintenance and Map

Primary challenge with Foothills BC Repairs and Maintenance is that they can only be done in the summer months due to access and environmental constraints. This can be when flows peak for summer cooling demand.

# Maintenance Zone 8

## Inline Inspections

- NPS36 B.C. System Segment 2 (Crowsnest C/S and Elko C/S) – 29 Km
- Follow Up ILI digs in 2014

## Digs/Pipe Work

- 6 Digs (1 seg 2, 2 seg 3, 4 seg 4)
- Launcher Relocation

## Outage Timing

- Summer 2013 due to access and environmental constraints.
- No restrictions to firm capacity anticipated

# Maintenance Zone 9

## Inline Inspections

- None for 2013
- 2014 planned ILI on NPS42

## Digs/Pipe Work

- 2 Digs (Shaunavon - Monchy)

## Outage Timing

- Summer 2013
- All outages coordinated with d/s Pipelines.
