

North American Energy Standards Board (NAESB) Update

Foothills Shipper Meeting

October 14, 2015

For Discussion Purposes with Foothills Shippers

Changes to Nomination Timelines

- FERC Order 809, Coordination of the Scheduling Processes of Interstate Natural Gas Pipelines and Public Utilities – Docket No. RM14-2-000 (as posted on the Federal Register)
 - “The Final Rule changes the nationwide Timely Nomination Cycle nomination deadline for scheduling natural gas transportation from 11:30 a.m. Central Clock Time (CCT) to 1:00 p.m. CCT and revises the intraday nomination timeline, to include adding an additional intraday scheduling opportunity during the gas operating day (Gas Day). The Final Rule effectuates these changes by incorporating by reference into the Commission's regulations the standards developed and filed by the North American Energy Standards Board (NAESB)”

Changes to Nomination Timelines

- The FERC will require interstate natural gas pipelines to comply with the revised NAESB standards beginning on April 1, 2016.
- TransCanada's Canadian Pipelines will incorporate these changes to the nomination timelines to remain in sync with the North American gas pipeline grid.
